Re: FCC ID: SNA-MM3400

To Whom It May Concern:

The following application is submitted on behalf of our client, Woodstream Corporation, for evaluation of their model RN-171 for class II permissive change certification under FCC Part 15.247.

The RN-171 is a standalone 802.11b/g small form factor, ultra-low power embedded TCP/IP module. This class II permissive change is to include an additional antenna.

The RN-171 was evaluated to the requirements of the aforementioned rules, as applicable to the permissive change, and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive style with a large initial 'R'.
