

# Konftel *Eya*

## **Good Choice!**

We are glad that you have selected a quality product from Konftel. **The Konftel Ego** is an easy-to-use and flexible device with great possibilities. It will for sure find its place close to your computer and support your mobile meetings, connected with USB or Bluetooth. Allowing the use of Skype for Business, Cisco Jabber or any other application of your choice. Or you can just use it as a speaker when you want to listen to your favourite music :-)

For almost 30 years we have refined and developed our unique OmniSound®-technology to perfection. **The Konftel Ego** is no exception.
