

Wireless Extenders  
11450 Technology Circle  
Duluth, GA 30097

Federal Communications Commission Date:  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

Gentlemen:

Wireless Extenders respectfully requests confidentiality of certain materials provided with the submission of the YX500-PCS under FCC ID: SO4YX500-PCS in accordance with FCC Regulations 0.459. The confidentiality request applies to the schematics, parts lists, block diagrams, and internal photos contained in this filing. We are early in the patent process and we believe our competitors (especially foreign) will be able to copy some of our technology much more quickly if they have access to internal photos. Some of the filters we wish to keep confidential were custom designed for our product.

The YX500-PCS has been developed at considerable effort and expense by Wireless Extenders. These items are considered as Trade Secrets and therefore public access to the proprietary material could possible result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

Michael Rodgers  
VP of Engineering
