

FCC ID: S04ZB570-TRI-ALTE

IC ID: 5544A-ZB570TRIALT

CT Project: P1410004

From: Daniel Park

Date: 2/19/14

1. The FCC id changed required to SOA4 from S0A in this Checklist.
[CT - Noted](#)
2. In “internal photo” and “Schematic” exhibits, it shows EDGE connector. Please furnish the purpose of this connector. It could be triggered JBP or DoC if this particular port could be utilized as computer peripheral.
[Wireless Extenders - The edge connector, it is only used for production test and is covered up in the final assembly.](#)
3. At the page 2 of Schematic exhibit, the 850Band Downlink upper limit stated as 895MHz. Please correct to 894MHz as other exhibits.
[Wireless Extenders – Please refer to Rev 1 exhibit.](#)
