RE: FCC ID: SOY-HWRG1_ATCB002997
Attention: Jerry Kiu

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that page 51 of the report states the device has a maximum of 14 channels depending on the regulatory authority. Page 16 of the manual further indicates that the device is capable of operation on other than US frequencies (i.e. Australia, Singapore etc). Please note that any device sold in the US must only operate between channels 1-11. Neither the manual nor other documentation clearly indicates that this device, as sold in the US, ONLY OPERATES on channels 1-11 or that user has no access to functions (either by control or downloadable software or firmware) that allows the user to adjust or make the device operate on non-US frequencies. Please note that the statement on page 50 about only 11 channels in the US and Canada does adequately address this condition. Because the manual indicates that the device may be able to operate on non-US frequencies, please provide evidence as to how the device is made so that the user has no access to any control function or feature (including downloadable software or firmware) so as to make the device, as sold in the US, able to operate above channel 11.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
