Subject: Request Permissive Change Class 2

FCC ID: SQ4LogiSphere

Without any hardware changes the output power has been decreased. This version has been retested on the original channel and on other channels. A new test report is available.

Accordingly this is a request for Permissive Change Class 2 for extension of the operating channels, in band 909-925 MHz.

A handwritten signature in black ink, appearing to be 'P. Adang', written over a horizontal line.

P. Adang, CEO  
Sensite Solutions B.V.
