... A Spectacular
Spectacle For all
your little spectators. ...

In Northpole, there are A LOT of Christmas lights.
And there's only one way to turn them Northpole way!

One push and the tree, lights, and you will all light up together.
Makes more magic magical?y hap?en!

Treeluminating
is FUN

- 1 Plug the Magic Receiver into the wall.
- 2 Plug your tree and any light devices (light strings, garlands, wreaths, etc.) into the Magic Receiver and slide the Treeluminator switch to ON.
- 3 Now, push and activate Treeluminator.
- 4 Push again to turn lights off?

It's the fun way to make your house
feel like you're at Northpole!
Works wirelessly up to 50 feet away.

More Magic Receivers make
it merrier—and brighter!
Each sold separately.

Visit Northpole1820.com
for activities, games & ideas that
make the season more magical.

Model: LPR2401
IC: 5786A-LPR2401

This device complies with Industry Canada Licence-exempt RSS-210. Operation is subject to the following two conditions:
(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Treeluminator
Light up your tree each day with fun sounds.
