Dear Sir:

We are sending this letter in order to ask for the following:

- a) We are requesting change in ID under the NIVIS name and the new FCC ID SQB-NIVISCM42 for SONY CDMA Module,
- b) The unit is not changed from the original filing,
- c) We are enclosing the old FCC ID # of the SONY unit (AXATR-423-A2) and information for the Grant(7/15/2004). Grant of the SONY unit you have in your file,
- d) The original test data continue to be representative and applicable to the module,
- e) The reason for the change in ID is to submit a permissive change allowing collocation with the P9-05-01-03 transmitter module.

If you have further question don't hesitate to contact me.

Best Regards

A handwritten signature in dark ink, appearing to read "LA Bay", is written over a horizontal line.
