

Mr. William Graff
ATCB
RE: NiVIS, LLC
FCC ID: SQB-NIVISCM42

Bill,

This cover letter is provided to state the purpose and reason for the request for a Class II Permissive Change to the above named FCC ID.

The Equipment Under Test (EUT) is the Nivis CDMA Module, Model CM42. The EUT is a PCS Transmitter operating in the 824-849 MHz and 1850-1910 MHz PCS band. The radio modem is designed for remote data acquisition systems.

1.2 Related Submittal(s)/Grant(s)

The EUT has been submitted for approval under FCC ID: SQB-NIVISCM42 (Change in ID) on 9/1/2005 under Part 24E, 22.901(d) and 22H.

The EUT will be co-located with another transceiver (currently submitted for co-location and pending approval under FCC ID: SQB-NIVISP9050103).

A separate Class II Permissive Change application for SQB-NIVISP9050103 has been submitted under U.S. Technologies Project Number: 05-0231. This permissive change includes Intermodulation Test results as presented in this report for use with the Nivis RF-P9-05-01-03 module.

Please contact me with any questions or comments. Thank you for your consideration.

Sincerely,

Louis A. Feudi
Operations and Engineering Manager
