

## Letter of Authorization

Attn: To Whom it May Concern / Application Examiner / Review Engineer / Officer in Charge  
Re: Authorization to Apply for a "Change in Identification" per Section §2.933(b) of 47CFR

Dear Madam or Sir,

**We**, Silicon Laboratories Finland Oy, a corporation branch validly organized and existing under the laws of Finland, having its principal place of business at Alberga Business Park, Bertel Jungin aukio 3, 02600 Espoo, Finland,

in relation to our Bluetooth LE wireless radio modules having model name of **BGM220P22A** and brand name of *Silicon Labs*, as the manufacturers hereby **declare** to have applied for, and to have obtained a Federal Communications Commission (FCC) grant with **FCC ID: Q00-~~GM220P~~** and with original issue date of April 13, 2020, and with this letter we **grant permission** on a one-time basis to the following company:

**Laird Connectivity Inc.** [hereafter referred to as the *New Grantee*]  
Full Address: 50 Main Street, Akron, OH 44308, USA  
FCC Grantee Code: SQG

to apply for a "Change in Identification" with FCC, as per FCC guidance under KDB 249634.

We understand that the New Grantee is requesting the authorization to make this change in order to re-brand and re-sell our modules, under their own naming and branding, as follows:

New brand and model name of module: Laird Connectivity Inc. / Lyra-P  
**FCC ID: SQG-LYRAP** [newly established, for re-branded/re-named module above]

thus, we authorize FCC to use information on file to grant the requested "Change in Identification".

- We confirm we will be supplying our BGM220P22A modules to the New Grantee unmodified and equivalent (in the design, circuitry, or construction) to the originally certified equipment. The original test results and technical documentation continue to be representative of, and applicable to the supplied equipment which will be bearing the changed identification. The original grant will remain in effect, nevertheless.
- Conversely, we emphasize to have no control or responsibility on the proper installation, configuration and use of our modules in the products manufactured and sold by the New Grantee and/or their clients under their names. As a result, the New Grantee take ownership and accountability for the compliance of their products, including any appropriate labelling to take into account the new identification, and commit to submit in any following permissive change application of theirs all the intended documentation, including but not limited to test reports, exterior photographs and product user manuals.

This authorization expires six (6) months after the date of issue. Should there be any query regarding this authorization, please do not hesitate to contact the undersigned.

Thank you for your attention to this matter.

Place and date of issue (of this letter):  
Espoo, September 6, 2021

A handwritten signature in blue ink, appearing to read 'Enrico Taddeo', is written over a horizontal line.
