The Certification Number with ISED's permission will be displayed in the Uses Guide along with the following text.

End Product Labeling

The Lyra S modules are not labeled with their own IC ID due to their size. Instead, the packaging label contains the IC ID. In all cases when the IC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. In that case, the final end product must be labeled in a visible area with the following:

For Lyra S:
Contains Transmitter Module IC: 3147A-LYRAS or *Contains IC:* 3147A-LYRAS
