RE: FCC ID: SQR-CL103_ATCB002010
Attention: Sam Chien

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. The manual for the device says that by pressing the transmitter key the first time that the transmitter has "successfully connected with the RX". Please explain this function. Please verify that this does not mean that the transmitter is in any way transmitting a signal to the receiver except when and only when the transmitter key is pressed.
2. Please note that you have provided the manual as the operational description for this device. Please note that this is not an operational description (i.e. it does not provide a description of how the device works.) Please provide an operational description of the device. Please verify in this operational description that the device has no automatic transmitting functions and that the device operates only by pressing the transmit key button.
3. Please verify that this device is strictly for the purpose of and is restricted to the transmission of a control signal.
4. Please provide the equipment code for the device on the 731 form.
5. Please complete the information about the person signing the 731 form (complete section IV giving address and email of the person signing the 731.)

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
