Subject: FCC ID: SQT-RIPEX2-4A

October 8th, 2019

Dear Sir/Madam,

The attached documents constitute a formal submission and application for Equipment authorization for the RipEX2-4A radiomodem pursuant to the FCC Part 90 rules.

The RipEX2-4A device contains software to allow communication within the 400 - 470 MHz frequency band. This device is designed to operate in 6.25, 12.5, 25 kHz channel spacings under Part 90 rules.

We, RACOM s.r.o. are aware of the FCC rules and that is a violation of rules for the device to operate on unauthorized frequencies.

This letter serves as supplementary evidence and attestation for the frequency banding authorization application.

If you have any queries, please do not hesitate to contact Racom s.r.o.

Sincerely,

Jiří Hruška, CEO
RACOM s.r.o.
