Android® Fans Start Here

1 Make sure your device is compatible.

Android 4.4 & Later with Bluetooth® Low Energy.

2 Download the TrackR app from the Google Play Store.
Search Google Play for TrackR, look for the icon as seen below.

3 Make sure Bluetooth is ON and open the TrackR app.

4 Press the "Get Started" button in the app.

5 Register the app for Crowd Source Tracking, future news, support, and discounts. When done select Next in the top right.

Registration is optional.

Please visit www.phonehalo.com for support, or email support@phonehalo.com.
Also visit www.youtube.com/user/phonehalo

Apple Fans, Please see the Reverse Side.

6 Select Yes when asked if you have a TrackR device with you, then select add a new device.

7 Push the button on the Wallet TrackR device. The blue LED will blink.

8 In the TrackR app, the Add Device screen should be showing. Select refresh at the top right corner, and "tkr" should appear on the screen.

9 Select "tkr" and the app will connect. Select "Pair" when prompted, and the device will beep to let you know it connected properly. Follow the on-screen instructions and enjoy TrackR.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:The manufacturer is not responsible for any radio or tv

interference caused by unauthorized modifications to this

equipment. Such modifications could void the user's

authority to operate the equipment.

Warning:
Changes or modifications made to this device not expressly approved by US Offshore Group may void the FCC authorization to operate this device.
