

Keyport TrackR with Light U15-C0024

Apple® Fans Start Here

- 1** Make sure your device is compatible.

iPhone® 4S & Later, iPad® Mini & Later, iPad 3rd Gen. & Later with iOS 7 or Later.

- 2** Download the TrackR app
Search the App Store for TrackR,
look for the icon as seen below.

- 3** Make sure Bluetooth is ON
and open the TrackR app.

- 4** Select okay to current location & Bluetooth permissions. We need these permissions in order for the app to work. If you accidentally select no, please go to iPhone settings to enable these. Settings> Privacy> Location Services, and switch TrackR ON.

- 5** On the App, select "Get Started".

- 6** Register for Crowd Source Tracking capabilities. You will receive an email to confirm your account. When done select Next in the upper right corner. (Registration is optional)

- 7** Select Wallet TrackR from the list of compatible devices. This will bring up instructions on how to set-up your Wallet TrackR device. Select Continue when you have your TrackR with you.

- 8** Push the button on the Wallet TrackR device. The blue LED will blink.

- 9** Select "tkr" and the app will connect. Select "Pair" when prompted, and the device will beep to let you know it connected properly. Follow the on screen instructions and enjoy your TrackR!

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device is measured RF output power is less than the SAR exclusion threshold value for human head and body. Therefore, SAR test is not necessary.
