Sharon Hoffman
Timco Engineering

Dear Ms. Hoffman;

Owing to discontinuation by our previous supplier, TandD finds that it must change manufacturers of the SAW filter that we use in our RTR-5x and RTR-50x wireless data loggers. The components affected by this change are shown in the table below. We would like to request that Timco Engineering perform retesting on these products to confirm that the modified products still conform to the relevant FCC Part 15 Rules, and if so to submit the necessary filings for a Class II Permissive Change.

Sincerely,

Akemi Oana
T&D Corporation
