

## Appendix D: SAR Test Setup

<p>Photo 1: Measurement System SATIMO</p>	<p>Photo 2: Liquid deep(15cm)</p>
 A photograph showing a KUKA robotic arm mounted on a table in a laboratory setting. The arm is positioned over a white measurement system. Various electronic equipment and cables are visible in the background.	 A close-up photograph of a white container filled with liquid. A ruler is placed vertically next to the container to indicate the liquid depth, which is approximately 15 cm.
<p>Photo 3: Left Cheek</p>	<p>Photo 4: Left Tilt 15°</p>
 A close-up photograph of the left cheek area of a white mannequin head. The head is mounted on a black and white mechanical base.	 A close-up photograph of the left cheek area of a white mannequin head, tilted at a 15-degree angle. The head is mounted on a black and white mechanical base.
<p>Photo 5: Right Cheek</p>	<p>Photo 6: Right Tilt 15°</p>
 A close-up photograph of the right cheek area of a white mannequin head. The head is mounted on a black and white mechanical base.	 A close-up photograph of the right cheek area of a white mannequin head, tilted at a 15-degree angle. The head is mounted on a black and white mechanical base.

<p>Photo 7: Face Upward 10mm</p>	<p>Photo 8: Back Upward 10mm</p>
 A photograph showing a white plastic component with a black cable and a red stripe. A metal ruler is placed vertically to the left of the component, showing a measurement of approximately 10mm.	 A photograph showing the back of the white plastic component. A metal ruler is placed vertically to the left, showing a measurement of approximately 10mm.
<p>Photo 9: Edge A 10mm</p>	<p>Photo 10: Edge B 10mm</p>
 A photograph showing the edge of the black component. A metal ruler is placed vertically to the left, showing a measurement of approximately 10mm.	 A photograph showing the edge of the black component. A metal ruler is placed vertically to the right, showing a measurement of approximately 10mm.
<p>Photo 11: Edge C 10mm</p>	<p>Photo 12: Edge D 10mm</p>
 A photograph showing the edge of the black component. A metal ruler is placed vertically to the left, showing a measurement of approximately 10mm.	 A photograph showing the edge of the black component. A metal ruler is placed vertically to the right, showing a measurement of approximately 10mm.
