## Modular Approval Request Letter

**Data: November 8, 2017**

|              |                 |
|--------------|-----------------|
| Company      | ZTE Corporation |
| Model Number | ZM8300G         |
| FCC ID       | SRQ-ZM8300G     |

The single module transmitter has been evaluated then tested meeting the requirements under Part 15C Section 2.12 as below:

| Requirement of Public Notice 15.212  | Reference to ZM8300G   |
|--|--|
| 1. The modular transmitter must have its own RF shielding.   | The module has its own RF shielding. Please see external photo.pdf   |
| 2. The modular transmitter must have buffered modulation/data inputs.  | The modular has buffered data inputs, it is integrated in chip ZM8300G. Please see schematic.pdf   |
| 3. The modular transmitter must have its own power supply regulation.  | All power lines derived from the host device are regulated before energizing other circuits internal to the ZM8300G. Please see schematic.pdf  |
| 4. The modular transmitter must comply with the antenna requirements of Section 15.203 ,15.204(b) and 15.204(c).   | A permanently attached antenna or unique antenna connector is not a requirement for licensed modules.  |
| 5. The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.   | The ZM8300G was tested in a stand-alone configuration via com serial interface. Please see test set-up photo.pdf   |
| 6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.   | The label position of ZM8300G is clearly indicated. If the FCC ID of the module cannot be seen when it is installed, then the host label must include the text: Contains FCC ID: SRQ-ZM8300G. Please see the label.pdf |
| 7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.  | The ZM8300G is compliant with all applicable FCC rules. Detail instructions are given in the Users Manual. Please see user manual.pdf  |
| 8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4). | The ZM8300G is approved to comply with the applicable RF exposure requirement, please see the MPE evaluation with 20cm as the distance restriction.  |
