

Product Change Description

ZTE 8010 is divided into two versions: single SIM card slot and double SIM card slot due to different sales areas. The circuit design is completely the same, only the difference is from the card tray. That is: insert a single card tray, a single-SIM card mobile phone; insert a dual card tray, a dual-SIM card mobile phone.

Figure: Double card tray on the left, single card tray on the right.
