

## FCC Letter for Limited Modular Approval

Date: January 30, 2015

### Request for Transmitter Limited Modular Approval

Model: FULLW001

FCC ID: SRX-FULLW001

The modular transmitter complies with the following requirements in FCC Part 15 Section 15.212 for Limited Modular Approval:

#### Transmitter Module Characteristics:

		Requirement	Comment
1.	Yes	The radio element of the modular transmitter has its own shielding.	The device is equipped with Metal shielding to cover RF section. Refer to external photos
2.	Yes	The modular transmitter must have buffered modulation data/inputs (if such inputs are provided).	All inputs to the device are buffered through logic U1 inputs. Refer to Schematic Diagram.
3.	Yes	The modular transmitter must have its own power supply regulation.	The device is equipped with Internal 1.2VDC regulator. Refer to Block Diagram.
4.	Yes	The modular transmitter must comply with the antenna requirements of FCC 15.203 and 15.204(c).	Module contains U. FL connector. The module will go inside final product where the Reverse SMA antennas will be external to the end product.
5.	No	The modular transmitter must be tested in a stand-alone configuration, i.e. the module must not be inside another device during testing.	The module has been tested with installed in the specific host. Please refer to the exhibit.
6.	Yes	The modular transmitter must be labeled with its own FCC ID. If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The proposed FCC ID label format is to be placed on the module. If FCC ID is not visible when the module is installed into the system, "Contains FCC ID: SRX-FULLW001" shall be placed on the outside of final host system.
7.	Yes	The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	Refer to "User Manual" Exhibit

8.	Yes	The modular transmitter must comply with any applicable RF exposure requirements.	The device complies with RF exposure compliance requirement
