Re: Supersede Request of FCC Part 90/Part22 Test Report
ISC Technologies Inc
FCC ID: SS6ISC-T5340

To Whom It May Concern,

The original FCC Part 90 / Part 22 test report had incorrect tuned frequencies listed in the Conducted Spurious Emissions Summary Test Table on page 10.

This table has been revised to list the correct tuned frequencies.

The rest of the information in the table is correct, and was not changed.

Respectfully,

A handwritten signature in black ink that reads "Greg Corbin".
