RE: FCC ID: STENRPCS20A_ATCB002283

Attention: Jay Kim

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please remove the copper shields from the circuit boards and provide internal photos of the circuitry underneath. (Please see page 3 of the internal photo exhibit).
2. Please note that the manual mentions a Bluetooth adapter. Is this to be included in this application? If so, please explain and please provide any needed test data and documentation.
3. FYI – no action needed. Please note that for units like amplifiers, repeaters and boosters, a comparison of the input modulated spectrum and the output modulated spectrum are required. While you have provided input plots for channel 150, you have not provided input plots for the other channels for which you have output plots.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
