**Subject: FCC ID justification letter for
expanded frequency range 406.1-480 MHz**

Gentlemen;

You have asked TMC Radio Pty Ltd for justification to have the 406.1-480 MHz frequency range appear on the face of the FCC Grant of Certification for a Part 90 and Part 22 Certification. This frequency range is regarded as usual and customary by United States Federal Government and its various departments, user organizations, and the military to appear on the face of the equipment Grant of Certification.

- (1) TMC Radio Pty Ltd's Marketing Department plans to ensure that USA users, other than those specifically identified in this letter, not operate within bands 406.1-480 MHz, as controlled by the users' FCC station license. It is in violation of the FCC Rules for this device to operate on unauthorized frequencies.
- (2) This device will not be marketed to USA users, other than those identified in the letter, namely the US Government and its various departments & military, for operation in 406.1-480 MHz frequency range.

Sincerely,

Robert Stowell.

TMC Radio Pty. Ltd.
