# [CK-Enterprise] Antenna Overview

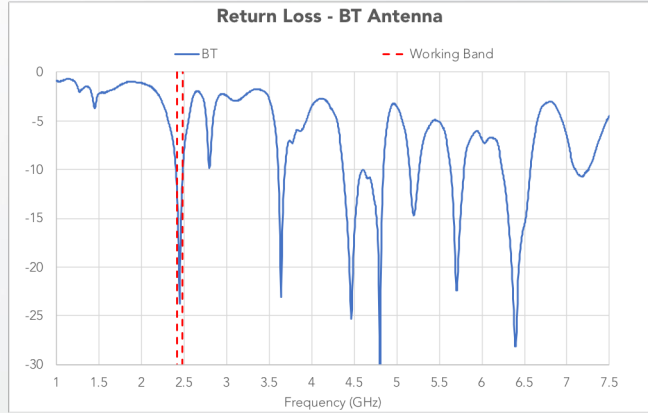

| Antenna                  | BT        |
|--------------------------|-----------|
| Working Freq. (MHz)      | 2400-2500 |
| Type                     | PIFA      |
| Polarization             | Mix       |
| Efficiency (%)           | 16        |
| Peak Realized Gain (dBi) | 4.0       |
| Material                 | FR-4      |
| Connector                | IPEX-1L   |

- Efficiency parameter present the maximum value over working frequency.
- Peak realized gain present the maximum round up value over working frequency.
