RE: Request for Dismissal: Ubiquiti Networks FCC ID: SWX-M2

To Whom It May Concern:

Please dismiss the referenced FCC ID per Ubiquiti Networks request due to items made public prior to release date of the M2. Please refer to Ubiquiti Networks cover letter for details.

If you need any additional information, please let us know.

Thanks!

Re: SWX-M2 Grant/Test data removal from public

To Whom it May Concern:

We request full materials corresponding to FCCID SWX-M2 be removed from the FCC website for approximately 1 month as we have had some unexpected delays that will affect our product release and product announcement dates. In order to protect our competitive advantage, we would like the materials removed from public access until we make our product announcement date.

We anticipate the product announcement date to be on July 31, 2009 and would like to remove the materials until then.

We are aware the materials are currently available for public viewing.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert J. Pera", is placed over a light gray rectangular background.

Robert J. Pera
