FCC ID: SWX-U6EPIW

We, Ubiquiti Inc., attest that this device under FCC ID SWX-U6EPIW complies with device protocol requirements and operational restrictions: for indoor access point 6ID.

Indoor Access Point 6ID:

1. Protocol attestation statement:
 - a. An 11ax IEEE device's Transmit Power Envelope element has information fields for the power limits for connection client/subordinate devices. The TPE information is contained in the device signals and used by connecting client/subordinate to ensure that it knows the regulatory TX powers it is allowed to transmit at. There is a regulatory info fields in this device beacon and probe response frames which details this device type when the client/subordinate associates to this device.

2. Statement acknowledging device restrictions:
 - a. Low-power indoor Access Point. Access Point operating in the 5.925-7.125 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery powered, and does not have a weatherized enclosure.
 - b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet.
 - c. Indoor access points are prohibited for control of or communications with unmanned aircraft systems, including drones.

A handwritten signature in black ink, appearing to read 'Mark M. Seal'.
