RE: FCC Class II Permissive change for FCC ID: SWX-UAPACPRO
(Original Grant Date: 09/11/2015)

Dear Sir or Madam:

Ubiquiti Networks is submitting an application for Class II Permissive Change to the UAP-AC-PRO, (FCC ID: SWX-UAPACPRO).

- The device under test (UAP-AC-PRO) has been the subject of an investigation by the FCC's Enforcement Bureau. See Case File No. EB-SED-17-00024731. This Class II permissive change request is being submitted at the request of the Enforcement Bureau to confirm that the device, with its current software update, complies with certain, relevant FCC standards.
- The test report provides the results of measurements taken to confirm compliance of emissions originating in the 2.4 GHz and the 5 GHz band. The scope of the tests included in this Class II permissive change request were discussed with FCC staff in the Enforcement Bureau and the Office of Engineering and Technology prior to its preparation.

There are no hardware or electrical modifications made to the applying wireless device.

The changes filed under this application are:

- Firmware version 4.3

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Feil'.
