Subject: Application for Class II Permissive Change, FCC ID: SWX-XR5

Dear Application Examiner,

The purpose of this filing is to apply for a Class II permissive change on the Ubiquiti Networks 5GHz XR5 module. The change is required to add a 9.1dBi antenna to the list of approved antennas. The following changes were required from the original grant to continue to meet the requirements of Section 15.247:

- Reduced the output power from 0.995 Watts to 0.088 Watts

The maximum output power is limited to compliant levels and not configurable by the end-user. Please refer to page 28 of the manual attached to this filing.

Your efforts in reviewing this application are greatly appreciated. Please contact me if there are questions or additional information needed concerning this request.

Sincerely,

A handwritten signature in blue ink that reads "David Schramm".

David Schramm, EMC Manager—SGS North America—
