FCC ID: SX90RFID1

In response to your comments dated 050506 regarding the application for certification of the devices referenced above please find our response below:

#### **FCC**

- 1.) External Photos must show all sides and all ports of the EUT. Please revise external photos.

*Please disregard photos as uploaded. This is a modular approval, correct photos have been uploaded.*

- 2.) Label Location photos must be included in label exhibit. Please upload label location photo.

*Label location photo uploaded.*

- 3.) No Users Manual exhibit was uploaded with this application. Please upload to ATCB.

*User manual uploaded, and revised operational description submitted.*

- 4.) Was this EUT tested according to ANSI C63.4 2003 in the three planes XY and Z? Please address this issue.

*Test report revised and uploaded. See added text in section 1.2.*

- 5.) In the test report 17 and 18 of 31. The data at the bottom shows failing data. Please explain what this is and include explanation in the test report.

*Currently explained in test report section 2.1, 3<sup>rd</sup> paragraph, data denoted as with antenna or with load substitution for antenna. Passing results obtained with load substituted for antenna.*

#### **Industry Canada**

- 1.) For Canadian label RSS GEN September 2005 states the label must have the manufacturer name, model number and IC identifier. Please revise label to include manufacturer name and model number.

*Label revised and uploaded.*

- 2.) In the test report it states RSS 210 issue 5 this standard is no longer used by Industry Canada. The new RSS 210 Issue 6 September 2005 is the current standard. Please revise all references in the test report.

*Report references revised accordingly and test report uploaded.*
