Subject: Asoka Incorporation, FCC ID: SXJRFOX2TO1, Assessment NO.: AN05T4823, Notice#2

Question #1: The class II change letter indicates that RF block has been changed, therefore, please redo fundamental field strength and bandwidth measurement.

Question #2: Please submit Schematics to show the component value change.

Hello Eric,

1) Please [submit](#) Class II permissive change letter.

2) [Please submit](#) Agent Authorization letter signed by the applicant, and on applicant's letterhead.

3) What do you mean the factor of resistor/capacitor? Is it the value of resistor/capacitor? If so, please submit schematics, and internal photos.

4) Since you submit the test report, please submit test setup photos.

Question #1: Please submit Class II change cover letter to provide a detailed description of the differences between the modified device and the previously certified device. Your test report does not mention this.

Question #2: Please submit all the exhibits that are affected by differences described in the Class II change cover letter, e.g, please submit External photos and internal photos if the modified device internal or external appearance differ(s) from the previously certified device. If retest is necessary, please submit test report and test setup photos.

7/5/2005

Best regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
