Short press: Decrease 0.1 Mhz

Long press: Decrease the volume

B:“ ▶▶

Short press: Increase 0.1 Mhz

Long press: Increase the volume

C. “ON/OFF”

Switch to on, to turn on.

Switch to on, to turn off.

USER'S GUIDE:

connect KF-100's audio plug to the headphone jack of your music device, cellphone or other MP3 player.

Turn KF-100 "ON"

Start playing a song on your music device at medium level volume.

Turn on your FM radio and find a station (frequency) that is not being used, for example: 88.1 MHz.

Use the FWD and BACK scan buttons on KF-100 to match the radio station you found, for example: 88.1MHz.

Note: Now both KF-100 and your radio should be on the same station, and you should hear your music playing.

Adjust the volume on your music device and/or FM radio as necessary.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
