

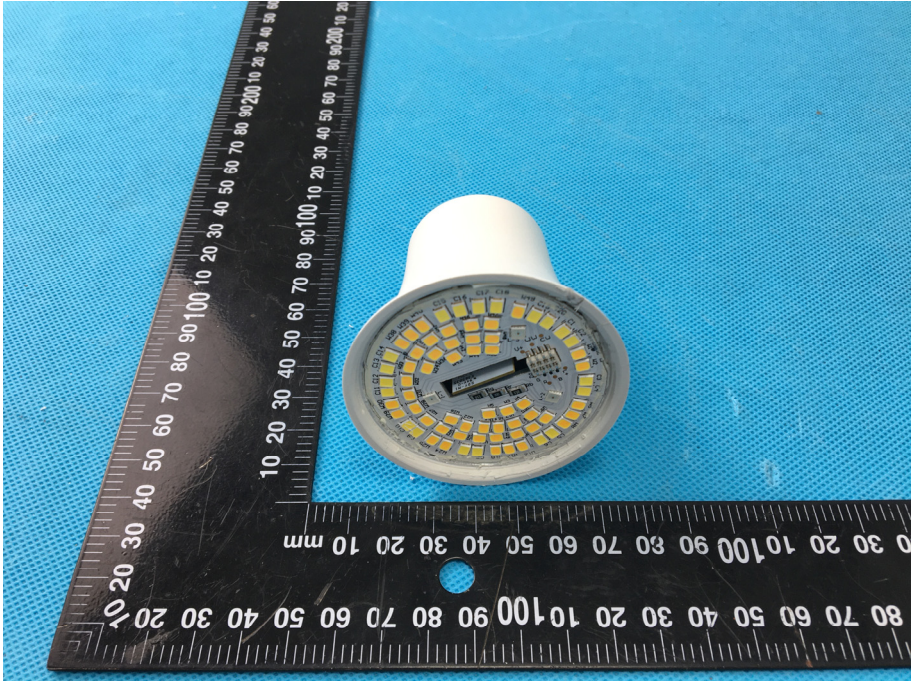

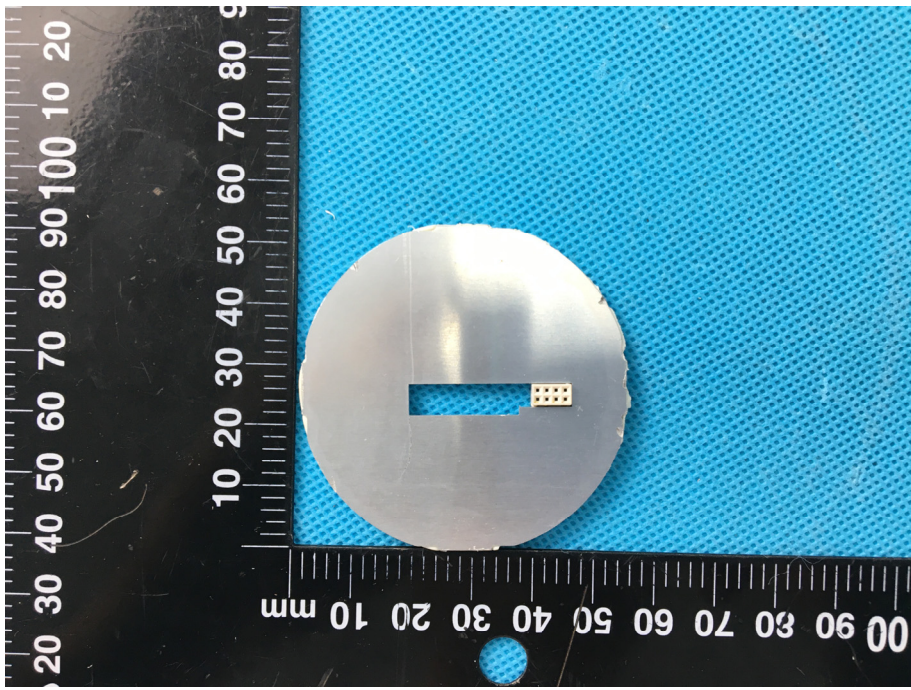

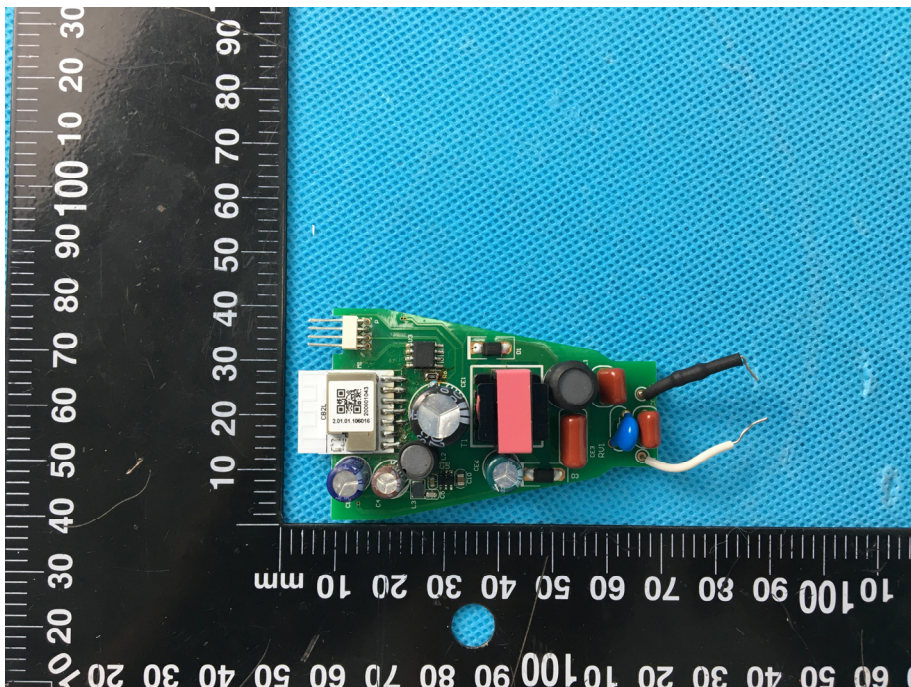

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the external view of a white, dome-shaped LED lighting fixture. The fixture is placed on a blue textured surface next to a black ruler for scale. The ruler shows measurements in millimeters, with the fixture's diameter being approximately 100 mm. The top of the fixture is open, revealing a circular printed circuit board (PCB) with numerous small, yellow LED chips arranged in a ring.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the circular PCB component from the fixture. The board is white and populated with many small, yellow LED chips. Various electronic components, including resistors and capacitors, are visible on the board. The board is placed on a blue textured surface next to a black ruler for scale. The ruler shows measurements in millimeters, with the board's diameter being approximately 100 mm.

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A circular silver solder board component with a rectangular cutout and a small white component on the right side. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements from 0 to 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A green printed circuit board (PCB) component with various electronic components including a microcontroller, capacitors, and a red component. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements from 0 to 100 mm.</p>
