

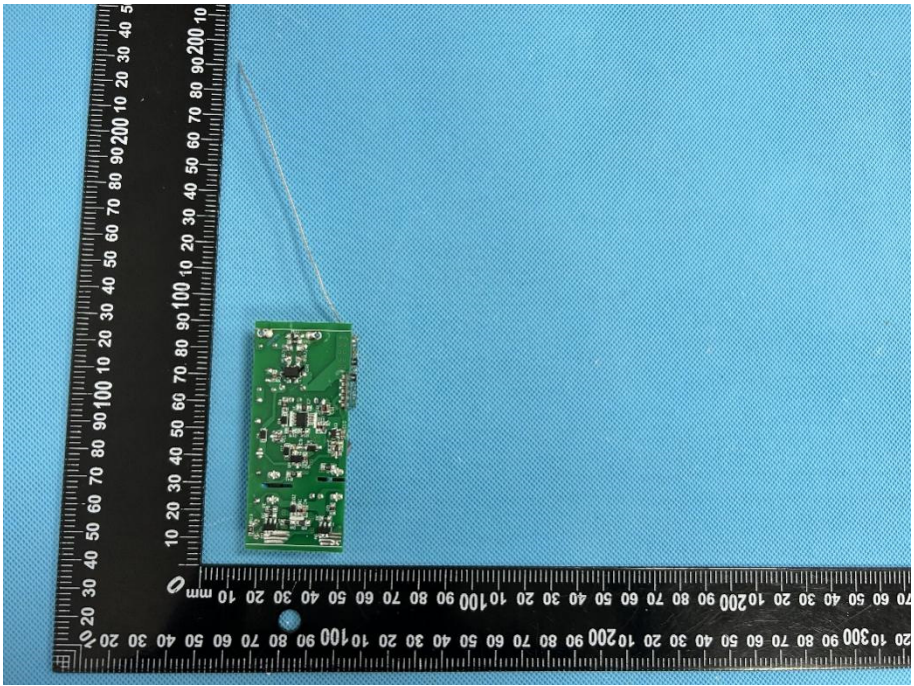

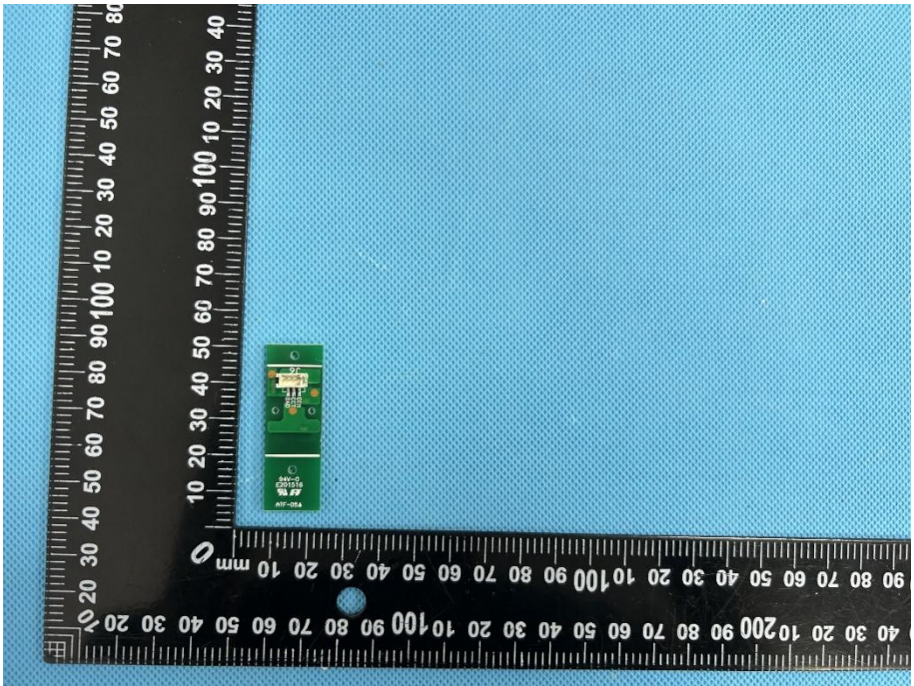

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

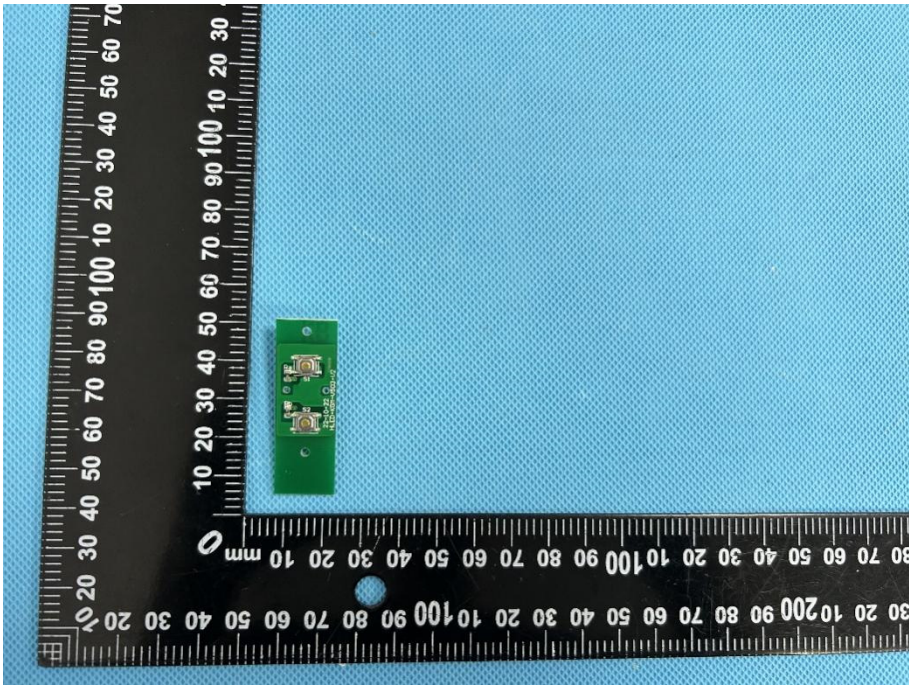

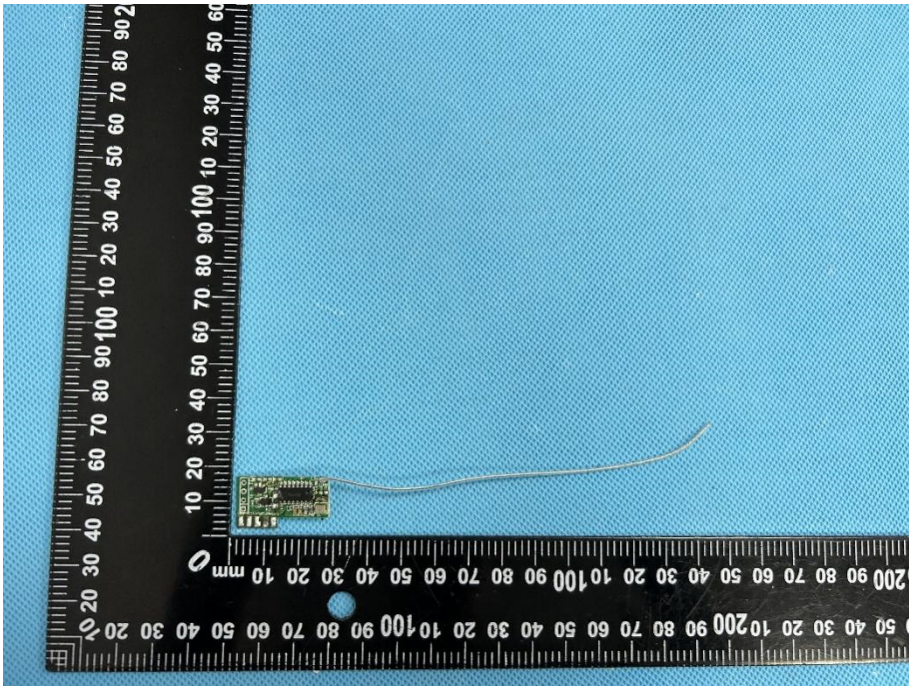

EUT Housing and Board View 1

Solder Board-Component View 1

<p>Solder Board-Component View 2</p>	 A photograph of a green printed circuit board (PCB) component with various electronic components and solder joints. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters and centimeters. The component is oriented vertically, with its longer side along the ruler's vertical edge.
<p>Solder Board-Component View 3</p>	 A photograph of the same green PCB component from a different perspective. The component is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters and centimeters. The component is oriented vertically, with its longer side along the ruler's vertical edge. The top surface of the component is visible, showing a gold-colored pad and some markings.

<p>Solder Board-Component View 4</p>	 A photograph of a small green printed circuit board (PCB) component. The component is rectangular and has several gold-colored pads and components on its surface. It is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler has markings in millimeters and centimeters. The component is positioned near the corner of the ruler, with its top edge aligned with the 10 mm mark on the vertical ruler and its left edge aligned with the 10 mm mark on the horizontal ruler.
<p>Solder Board-Component View 5</p>	 A photograph of the same small green PCB component as in View 4. In this view, a thin, curved wire is attached to the component. The wire is light-colored and extends from the component towards the right side of the frame. The component is placed on the same blue textured surface next to the same black L-shaped ruler. The component is positioned near the corner of the ruler, with its top edge aligned with the 10 mm mark on the vertical ruler and its left edge aligned with the 10 mm mark on the horizontal ruler.
