Operational Description

1. **Product Information**

Product name	HF UNIT
Model number	ASSA0001001
Hardware version number	Ver1.0
Software version number	Ver1.0

2. Features

HF UNIT is Bluetooth(TM) Hands-free Unit for Motorcycles.

Offers the following functions without taking off helmets whether motorcycle is in motion or stop:

- 1) Hands-free communication for rider
- 2) Wired communication between rider and passenger
- 3) External audio connection for rider

HF UNIT is used wearing it to rider's body.

3. Technical Description

Hardware Version 1.0 and Software Version 1.0, It is in compliance with Bluetooth Specification Ver1.1.

3.1 Operating Condition

- 3.1.1 Temperature Range: -10~+60deg
- 3.1.2 Power Supply Voltage (Nominal):3.0V
- 3.1.3 Power Supply Voltage Range: 2.4~3.4V

- 1) CPU
- 2) Memory

: 32bit RISC type CPU

Flash ROM : 1MByte DRAM : 2MByte (60ns) 3) Bluetooth

Version	: Bluetooth Spec. V1.1
Frequency Range	: 2,402MHz~2,480MHz
Modulation	: FHSS (2 GFSK)
Output Power	: +4dBm (Max)
Reception sensitivity	: -70dBm
Antenna	: Chip antenna
3) Battery	: R6/LR6/AA (3.0V)
4) Connector	
For Headset	: 6pin DIN
For AUX	: 3pin Single-end
