RE: Certification Application
FCC ID: SZV-PTM215Z

Please be advised that the following information is a list of modifications that will be implemented in a device variant for the above-referenced equipment.

- Number of radio channels has been increased from 4 (IEEE802.15.4 channels 11, 15, 20 and 25) to 16 (IEEE802.15.4 radio channels 11...26)
- The frequency range has been increased from 2405 MHz ... 2475 MHz to 2405 MHz ... 2480 MHz

Thank you for your attention in this matter.

Sincerely,

Matthias Poppel
Chief Operation Officer
