RE: Certification Application  
FCC ID: SZV-PTM215Z

Please be advised that the following information is a list of modifications that will be implemented in the device variants PTM215ZE PTM 216ZGP and PTM 217ZGP of the above-referenced equipment:

- The radio telegram data (value of the transmitted Bytes) is different for each member of the family

All modifications are in the firmware. The hardware or circuitry has not been modified. The RF output power has not been changed.

Thank you for your attention in this matter.

Sincerely,

Signatory  
(EnOcean GmbH / Armin Anders / VP Business Development)
