Date: June 13<sup>th</sup>, 2013

**RE: FCC ID: SZV-STM300U**

**To whom it may concern:**

The purpose of the permissive change and re-testing to the above listed IC ID number is to add an additional antenna option (chip-antenna). The power setting to be incorporated in the production firmware is the same as used in previous testing and certification used in the original antennas. The chip antenna and matching circuit is described in the user's manual also provided with this filing.

No changes were made to the transmitting frequencies or any of the circuitry that affects the transmitting frequency determining circuitry.

Sincerely,

Oliver Sczesny  
Application Engineering Manager  
EnOcean Inc.
