FCC Application for FCC ID: SZV-STM300U

Subject: Frequency Update on FCC Grant

Date 16. Nov. 2016

To Whom it May Concern:

In the initial submission for FCC ID: SZV-STM300U the frequency of the low power transmitter was rounded up to one decimal point showing the transmitter at 902.9 MHz.

Managing Director
Dr. Wald Siskens

Registered Court
Munich HRB 139781
VAT Reg.No. DE813355588

This letter is to request that the FCC Grant for FCC ID: SZV-STM300U be updated to show the frequency of the low power transmitter with three decimal points showing the transmitter at 902.875MHz.

Account
HypoVereinsbank München
IBAN DE19700202700002440610
BIC HYVEDEMMXXX

Since all other related documentation, including Datasheet and User Manual, which have been part of the initial submission, are showing 902.875MHz, some customers have become confused about the frequency in use.

By doing this we believe that this more accurately reflects the actual frequency being transmitted.

Sincerely yours,

Armin Anders
