Wireless Presentation Pod

WPP20

Quick Start Guide (V1.0)

Packaging Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

WPP20 Wireless Presentation Pod

Quick Start Guide

WPP20 Component Instruction

Component	Description
1. USB Port	a) Connects to the USB port on the video conferencing endpoint to obtain Wi-Fi profile. b) Connects to the USB port on the computer for sharing content.
2. Presentation Button	Starts or stops sharing content.
3. LED Indicator	Indicates the status of WPP20.

Registering the WPP20 to the Endpoint

If the WPP20 has been registered with the video conferencing endpoint, you can skip this chapter. If the WPP20 is not registered with the endpoint, you should register the WPP20 to the endpoint manually. So that you can easily present your computer screen on the monitor.

To register the WPP20 to the endpoint:

1. If you want to connect the WPP20 to the VC800/VC500 endpoint, you should connect a WF50 dongle to the USB port on the endpoint first. If you want to connect the WPP20 to the VC200 endpoint, go to step 2 directly.
2. Connect the WPP20 to the other USB port on the endpoint.
3. Disconnect the WPP20 when the monitor prompts "Wi-Fi profile is already updated."
3. Connect the WPP20 to the USB port on your computer. Your WPP20 registers to the endpoint automatically. And your computer starts the Yealink Wireless Presentation Pod software automatically.

Starting or Stopping Sharing Content

To start sharing content:

1. Do one of the following:
 - Press the presentation button on the WPP20.
 - On the Yealink Wireless Presentation Pod software, click **Contents Share**. Choose the file you want to share and then click **Start Share**.

To stop sharing content:

1. Do one of the following:
 - Press the presentation button again on the WPP20.
 - On the Yealink Wireless Presentation Pod software, click **Stop Share**.

FCC Statement

This device is compliant with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
 2. This device must accept any interference received, including interference that may cause undesired operation.
- Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
1. Reorient or relocate the receiving antenna.
 2. Increase the separation between the equipment and receiver.
 3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 4. Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

"This product meets the applicable Innovation, Science and Economic Development Canada technical specifications. / Ce produit répond à la innovation, des sciences et de Développement économique Canada spécifications techniques applicables."

"The Ringer Equivalence Number (REN) indicates the maximum number of devices allowed to be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices not exceed five. / Le nombre équivalent de sonneries (REN) indique le nombre maximal de terminaux qui peuvent être raccordés à une interface téléphonique. La terminaison d'une interface peut consister en une combinaison de dispositifs, à la seule condition que la somme des REN de tous les dispositifs ne dépasse pas cinq."

If this module absence of information to transmit or operational failure then it will automatically discontinue transmission by software.

This equipment complies with Industry Canada radiation exposure limits set forth for an uncontrolled environment. Cet équipement est conforme à l'exposition aux rayonnements Industry Canada limites établies pour un environnement non contrôlé.

Canada Statement

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

(1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada

applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage;

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

About Yealink

Yealink (Stock Code: 300628) is a global leading unified communication (UC) terminal solution provider that primarily offers video conferencing systems and voice communication solutions. Founded in 2001, Yealink leverages its independent research and development and innovation to pursue its core mission: "Easy collaboration, high productivity." The company's high-quality UC terminal solutions enhance the work efficiency and competitive advantages of its customers in over 100 countries. Yealink is the world's second-largest SIP phone provider and is number one in the China market.
