Subject: Justification for lack of information about EPSUM A40 in User Manual.

Applicant : PARKEON
Product : ESPUM C40 C-less
Model : ESPUM C40 C-less
FCC ID : T2X-C40-C-LESS

Dear Sir/Madam,

EPSUM C40 C-less composed of:

- EPSUM MR40. It is a hybrid card reader (credit car reader), PCI approved, which includes an embedded C-less Reader.
- EPSUM A40. It is a passive integrated antenna, which includes Read Status Indicators.

There is no information about EPSUM A40 in User Manual because EPSUM A40 is an option of EPSUM MR40. In applications where we needn't a "contactless" payment system, only EPSUM MR40 is integrated. But if contactless system is needed, EPSUM A40 is integrated with EPSUM MR40.

ESPUM C40 C-less is destined to be only integrated in Parkeon's machines, that's why integration and installation are controlled.

Some Information about EPSUM A40 is given in operational description (*T2X-C40-C-LESS-OpDes.pdf*).

If you have any queries, please do not hesitate to contact us by our:

- Phone: +33 (0)381544874
