Subject : Professional Installation Justification

Applicant : PARKEON
Product : V2 Cless M
Model : V2 Cless M
FCC ID : T2X-V2-CLESS-M

Dear Sir/Madam,

The V2 Cless M is a "contactless" system of validation, payment or identification which provides cardholders to validate , pay or identify with a RFID Card on a passive target.

V2 Cless M is composed of :

- Module lect Cless M is a RFID reader which includes the analog and digital parts to manage ISO 14443 RFID chip.
- A passive antenna (4 antennas models)
- Coaxial cable with SMB connectors to connect the module and the antenna

V2 Cless M was developed by Parkeon for Parkeon's machines.

It's destined to be only integrated in Parkeon's machines (non exhaustive) :

- Pay and Display Parking machine (On street Parking)
- Automatic Fare Collection
- Off street Parking

...

Like V2 Cless M is only intended for Parkeon's machine, we control :

- The integration of the system in different machines
- The installation by way of quality control in production
- The maintenance because it's ensured by Parkeon or authorized person

If you have any queries, please do not hesitate to contact us :
