Attn: TCB Director

Subject: Models Differences for New Family Application

The following models are represented under FCC: T3X-012:

RFDW-ZBMS
RFMS-ZBMS

The RFDW-ZBMS (DW) and the RFMS-ZBMS (MS) use the same PCB and plastic enclosure. The RF emissions are the same for the two variants since the same RF IC, matching network and antenna are used on both designs.

The MS variant incorporates 3 additional sensors:

- 1) Water sensor (R33, R38, C31)
- 2) Light sensor (Q4, R24, C29)
- 3) MEMS Accelerometer (U4, C26, C27)

The worst case was tested under report 323699-1TRFWL.

Thank you for consideration of this filing.

Best regards,

A handwritten signature in blue ink that reads "Peter J. Namisanak".
