Dear Sir or Madam,

Following our capital restructuring operated on June 2020 as well our 18-year anniversary this year, we have decided to start a new challenge by reshaping our company identity's starting January 1st 2023.

This new identity & name highlight the whole philosophy of the company since its inception, namely, to provide its customers with cutting-edge technologies before anyone else. What's more, since the beginning, we are committed to developing our products in compliance with the latest "Green" rules, with a very High ROI in terms of CO₂ reduction for equipped vehicles. Ultimately, we want to boost these strong features and we are pleased to finally announce that:

LDL Technology SAS will become **LID Technologies SAS**.

The name LID Technologies is also a nod to our roots with a bit of modernity, while in tune with our times: "Low Impact Development" becomes our theme. The addition of "**Technologies**" in plural form demonstrates once again our desire of innovation in several areas. The legal form **SAS** completes our new name.
