Building Automation Products, Inc.

April 05, 2006

Federal Communications Commission
Equipment Approval Services

re: FCC ID: T4F16963N16964

Gentlemen:

Enclosed please find the Building Automation Products, Inc. application for FCC Certification of the Building Automation Products, Inc. wireless Temperature and Relative Humidity Sensor.

The test data submitted as part of this application were prepared by dBi Corporation, 216 Hillsboro Ave., Lexington, Kentucky 40511-2105. DBi Corporation has A2LA accreditation for EMC testing. Certificate number 1985-01, valid to September 30, 2006. The facility used for radiated measurements is owned by Lexmark International, Inc. and was recognized by the Commission as meeting the requirements of section 2.948 of the Rules via a letter dated December 10, 2001.

We submit the information in this application pursuant to the requirements of section 2.1033 and Part 15 of the Federal Communications Commission Rules and Regulations. We request that the Commission grant equipment authorization as soon as it is determined that the attached Application for Equipment Authorization is acceptable.

We further request that the schematics and block diagrams of the Building Automation Products, Inc. Model BA/BS2-WTHT, be treated as confidential information as provided for in 47 CFR Section 0.459 (d) (2). Building Automation Products, Inc. considers this information to be a trade secret. The schematics and block diagrams are in .PDF files (included with this application) and are listed as BS2-WTHT(Schematics).pdf and BS2-WTHT(Block-Diag).pdf respectively.

Thank you in advance for your assistance. If further information is required concerning this application, please do not hesitate to contact me.

Sincerely

Robert Novak
Design Engineer, Building Automation Products, Inc.
