

MANUAL

Thanks for purchasing our product. Please read this manual carefully before starting to use this device. When you use this device, you are supposed to learn well of this product.

Charging the Bluetooth Car Kit

The Bluetooth handsfree car kit is powered by a rechargeable Li-ion battery and solar panel. The rechargeable Li-ion battery can be recharged for hundreds of times, till it wears out. The solar panel can charge for the product automatically when there is sunshine, and when there is not enough sunshine, the product is powered by the rechargeable Li-ion battery.

The Car Kit will emit "Do.Do" alarm sound when the battery is running low. And "Low Batt" on the LCM will confirm it. Please charge it with the enclosed charger. Red LED will indicate while it is charging.

Using The Bluetooth Car Kit
