主旨 : Netcore Technology Inc., FCC ID: T58331GU2006M1, Assessment NO.: AN06T6031, Notice#1

Dear Eric Wong,

I have reviewed the above referenced TCB application and find that the following items need to be addressed before the review can be completed:

1. The Users Manual supplied does not contain any of the required compliance

8/9/2006

information. Please provide a revised manual which addresses:

- a. the text required by 15.19 ('This device complies with Pt. 15..') since it is not included on the label of this small device;
- b. the 15.105 and 15.21 Digital device required text;
- c. RF Exposure guidance ('This transmitter must not be co-located with any other transmitters or antennas.').

2. The test report shows 3 different models (331GU / NC-331GUM1 / NE-331GUM1) and indicates that 'Model Difference' is 'based on same products.' Please clarify if there is any difference between the 3 different model numbers.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,
Chris Harvey
