

Nonconformities FCC ID: T5P-T501 (CKC CS Ref # 96218-06-FCC)

OK	ID	#	Non-Conformity or Comment	Submitted Response	Respondent / Date of Response
x		2	The provided ID label sample does not contain information on the location on the equipment where the label is placed. Please provide a photo or drawing of ID label placement.	The mold makers will screen the FCC label on the bottom of the turtle CRP-Corrugated Plastic Ink. It will be in white as the turtle is dark green	CZ 1/15/15
x	TL	5	In test report 96218-4, please provide explanation as to why the testing is performed without an enclosure. This product has not requested modular approval.	In order to facilitate testing at the maximum battery voltage, DC leads were connected to the EUT during testing precluding attachment of the plastic enclosure.	CZ 1/14/15
