

To Whom It May Concern

**Subject:           Class II Permissive Change Request for FCC ID: T78-WL18**

Dear Examiner,

This letter is to request a Class II permissive change for FCC ID: T78-WL18. The original filing of this radio module was limited to mobile applications with a minimum separation distance of 20cm. FCC ID: T78-WL18 will be installed in the Librestream Model: 800. The Model 800 product is a portable device and may be hand-held, or head mounted. To address these new conditions of use, we have performed SAR testing and are requesting a Class II permissive change.
