To Whom It May Concern:

The RANGR-XVR-DB series of devices is comprised of two models – Transceiver and Receiver-only. In addition, each model has two variations based on whether an internal GPS receiver is included or not.

Receiver-only models use the same printed circuit boards but do not populate the UAT transmitter circuitry components. All four variations of the product are identified by one of the following part numbers:

FDL-DB-XVR (Transceiver)

- 87334-00-FX00 with internal GPS
- 87334-10-FX10 without internal GPS

FDL-DB-RX (Receiver-only)

- 87334-00-FR00 with internal GPS
- 87334-10-FR10 without internal GPS

Sincerely,

A handwritten signature in black ink, appearing to read 'Keith Kapral', is written over a light blue horizontal line.
