

Explanation about our product labeling

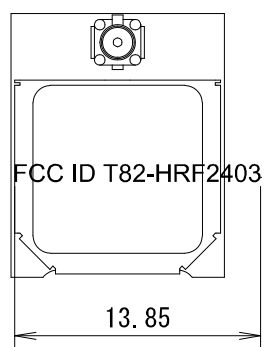

FCC ID : T82-HRF2403
Model : HRF-2403
Applicant : Herutu Electronics Corporation

We would like to declare that there is no space for printing the FCC ID on the product.

We will show the dimension of our product size as below.

If we try to write FCC ID on this module, the minimum character size is 4pt and it will be as shown in the figure below and will be out of the label.

It is physically impossible to display the FCC ID code in 4pt, 1 line on the shield cover due to the small product size. The FCC ID code will be displayed on the product packaging and in the user's manual in accordance with the provisions of FCC Part 2, 2.925 (f).
